During the financial year ended 31 December 2025, the Income Fund sold securities of US\$52,348,272 (31 December 2024: US\$120,091,864) to Repack Bond Collateral Ltd. (the "Entity"), an exempted company incorporated with limited liability under the laws of the Cayman Islands, which is a related party of the Investment Advisors. There are no fees paid to the Investment Advisors by the Entity. At 31 December 2025, the Income Fund held 9,694 Notes (31 December 2024: 9,694 Notes) of BNP Paribas Issuance BV., which is secured by notes issued by the Entity. During the financial year, the Entity paid the Income Fund total distributions of US\$70,980 (31 December 2024: US\$76,123).

During the financial years ended 31 December 2025 and 31 December 2024, the PIMCO TRENDS Managed Futures Strategy Fund invested in two structured notes, Aries Capital DAC and Greenleaves Capital DAC, the proceeds of which were used to issue redeemable participating shares of PIMCO Commodities Diversified SP, a segregated portfolio of PIMCO Diversified Strategies SPC. PIMCO Diversified Strategies SPC, an exempted company incorporated with limited liability under the laws of the Cayman Islands, is a related party to the Investment Advisors. There are no fees paid to the Investment Advisors by PIMCO Diversified Strategies SPC. As at 31 December 2025, the value of the structured notes held by the PIMCO TRENDS Managed Futures Strategy Fund was US\$13,976 (31 December 2024: US\$26,771).

As of 31 December 2025 and 31 December 2024, the PIMCO Obbligazionario Prudente Fund, a Fund of PIMCO Select Funds plc and considered as an Affiliated Fund, held a Credit Suisse AG AT1 Claim (the "AT1 Claim"). This AT1 Claim relates to a holding in a Corporate Bond position in the banking and finance industry sector.

In connection with an in-specie redemption from the PIMCO Obbligazionario Prudente Fund, and a corresponding in-specie subscription into the PIMCO European Short-Term Opportunities Fund, which occurred on 15 May 2024, it was determined that the AT1 Claim cannot be transferred to the PIMCO European Short-Term Opportunities Fund.

At 31 December 2025 and 31 December 2024 the amount receivable from PIMCO Obbligazionario Prudente Fund, attributable to the prorated portion of the AT1 Claim is recognised as Receivable from Affiliated Fund on the PIMCO European Short-Term Opportunities Fund Statement of Assets and Liabilities. The PIMCO Obbligazionario Prudente Fund, will pay the PIMCO European Short-Term Opportunities Fund an amount equal to 99.26% of any net return (if any) it may receive in the future with respect to the AT1 Claim.

Dynamic Multi-Asset Fund merged into the Strategic Income Fund during the financial year ended 31 December 2024. As at 31 December 2025, a residual AT1 Claim continues to be held on Dynamic Multi-Asset Fund, with any future net proceeds contractually payable to the Strategic Income Fund. Further details and the relevant carrying amounts as at 31 December 2025 and 31 December 2024 are disclosed in Note 2 to the financial statements.

Directors' and Secretary's Interests in Shares, Debentures and Contracts

At 31 December 2025, V. Mangala Ananthanarayanan held 5,319.15 (31 December 2024: 5,319.15) shares of the PIMCO Capital Securities Fund, 3,619.69 (31 December 2024: 3,619.69) shares of the Global Bond Fund and 27,543.65 (31 December 2024: 27,543.65) shares of the Income Fund, all Funds of the Company.

At 31 December 2025, Ryan P. Blute held 28,827.68 (31 December 2024: 28,827.68) shares of the Low Average Duration Fund and 50,751.14 (31 December 2024: 50,751.14) shares of the Low Duration Income Fund, all Funds of the Company.

At 31 December 2025, Craig A. Dawson held 18,118.23 (31 December 2024: 18,118.23) shares of the PIMCO Capital Securities Fund, 8,164.92 (31 December 2024: 8,164.92) shares of the Low Duration Income Fund and 1,775.83 (31 December 2024: 1,775.83) shares of the Low Duration Opportunities Fund, all Funds of the Company.

At 31 December 2025, David M. Kennedy held 16,786.79 (31 December 2024: 16,786.79) shares of the PIMCO Balanced Income and Growth Fund, 3,706.36 (31 December 2024: 3,939.17) shares of the Emerging Markets Bond Fund and 21,030.49 (31 December 2024: 21,030.49) shares of the Global Investment Grade Credit Fund, all Funds of the Company.

At 31 December 2025, Myles Lee held 9,271.85 (31 December 2024: 9,271.85) shares of the PIMCO Asia High Yield Bond Fund and 598.86 (31 December 2024: 598.86) shares of the Euro Bond Fund, all Funds of the Company.

No other Directors held interest in the shares and debentures of the Company as at 31 December 2025 and 31 December 2024.

The Secretary held no interest in the shares and debentures of the Company as at 31 December 2025 and 31 December 2024.

The Company had no employees as at 31 December 2025 and 31 December 2024.

15. EXCHANGE RATES

For the purposes of combining the financial statements of the Funds, to arrive at Company figures (required under Irish Company law), the amounts on the Statement of Assets and Liabilities have been translated at the exchange rate ruling at 31 December 2025 from Euro to U.S. Dollar (USD/EUR 0.85146) (31 December 2024: USD/EUR 0.96572) and from British Pound Sterling to U.S. Dollar (USD/GBP 0.74347) (31 December 2024: USD/GBP 0.79847). The amounts on the Statement of Operations and the

Statement of Changes in Net Assets have been translated at an average exchange rate for the financial year ended 31 December 2025 from Euro to U.S. Dollar (USD/EUR 0.88629) (31 December 2024: USD/EUR 0.92453) and from British Pound Sterling to U.S. Dollar (USD/GBP 0.75901) (31 December 2024: USD/GBP 0.78267).

The following table reflects the exchange rates used to convert to Euro, British Pound Sterling and U.S. Dollar, the functional currencies of Funds of the Company, the investments and other assets and liabilities denominated in currencies other than each Fund's functional currency.

The exchange rates for the Argentine Peso ("ARS") as of 31 December 2025 reflect the official rates. As of 31 December 2024, they included a 15% discount due to a gap between Argentina's official and unofficial exchange rates.

16. FINANCIAL RISKS

The main risks arising from the Company's financial instruments are market price, foreign currency, interest rate, liquidity, credit and counterparty risks.

(a) Market Price Risk

Market risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss of each Fund might suffer through holding market positions in the face of adverse price movements. The Investment Advisors consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Funds' investment objectives.

The Investment Advisors use a number of quantitative techniques to assess the impact of market risks including credit events, changes in interest rates, credit spreads and recovery values on the Funds' investment portfolio.

The Investment Advisors use Value at Risk ("VaR") analysis, a technique widely used by financial institutions to quantify, assess, and report market risk. VaR is a statistical framework that supports the quantification of market risk within a portfolio at a specified confidence interval over a defined holding period. Certain Funds may use the Relative VaR model or Absolute VaR model. Where the Relative VaR model is used, the VaR of a Fund's portfolio will not exceed twice the VaR on a comparable benchmark portfolio or reference portfolio (i.e. a similar portfolio with no derivatives) which will reflect a Fund's intended investment style. Where the Absolute VaR model is used, the VaR of a Fund's portfolio may not exceed 20% of the NAV of a Fund and the holding period shall be 20 days and the length of the data history shall not be less than one year. VaR seeks to quantify the expected minimum, maximum and average dollar losses that may result from the interactive behaviour of all material market prices, spreads, volatilities, rates and other risks including foreign exchange, interest rate, emerging market and convexity risk based on the historically observed relationships between these markets.

Although the use of derivatives may give rise to an additional leveraged exposure, any such additional exposure will be covered and will be risk managed using the VaR methodology in accordance with the Central Bank's requirements. The Investment Advisors monitor portfolio risk using market factor exposures on a daily basis. Potential market risk is calculated using the parametric delta-normal or factor model approach. VaR is calculated and reported automatically each day using the closing prices and market information of the most recent business day. Depending on the application of the risk statistics, various confidence levels (such as 99%) and time horizons (weeks or months) might be selected.

Stress tests also are conducted relating to the VaR model for each Fund on a monthly basis. The PIMCO Risk Group oversees the composition of stress tests and makes appropriate adjustments when market conditions or fund compositions make that appropriate. The stress tests estimate potential gains or losses from shocks to financial variables including nominal sovereign rates, nominal swap rates, real rates, credit spreads, equity valuations, commodity values, currency exchange rates, and implied volatilities. In addition to the monthly stress testing, three additional types of stress tests are also conducted, some of which are used daily and some of which are used for analysis interactively. The first are scenario duration tests that measure what happens to the value of the portfolio if unexpected movements in yields occur in the market. These durations are calculated every business day. The second test involves a database of historical crisis scenarios that can be executed to test reactions to these crises. The historical crisis scenarios contain many unexpected changes in market conditions and correlation matrices. The third test involves correlation matrices which can be manipulated manually to reflect conditions that may happen in the future but have not happened so far.

Calculations generally are done by using automated simulation methodologies. However, there are also methodologies to manually check what changes in the correlation matrices would have a big negative impact to the portfolios. These correlations changes can then be analysed and possible real world events that could bring about such changes can be assigned.

Of course, it cannot be ruled out that actual economic results will differ significantly from manual and automated scenarios.

The daily VaR measures are an estimate of the portfolio loss over the next one month period that would not be exceeded 99% of the time, relative to the assumptions of the VaR model.

Not all risks to which the portfolio may be exposed are intended to be captured by VaR and, in particular, the framework does not seek to capture liquidity risk, counterparty credit risk, or extreme credit events such as an issuer default. In practice, the actual trading results will differ from the VaR and may not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored to test the validity of the assumptions and parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that each Fund would withstand an extreme market event.

The following tables set out the minimum, maximum, average and year end VaR of each Fund as at 31 December 2025 and 31 December 2024:

Fund	Methodology	Benchmark	31-Dec-2025

The Central Bank requires that all funds disclose a measure of leverage calculated on a gross notional exposure basis. The gross notional exposure figure is calculated using the sum of the absolute value of notionals of the derivatives (which is deemed to include certain forward settling trades), as is required by the Central Bank and as such does not take into account any netting and hedging arrangements that the Fund has in place at any time. The use of derivatives (whether for hedging or investment purposes) may give rise to a higher gross notional exposure. The Funds' gross notional exposure is expected to increase to the higher levels, for example, at times when the Investment Advisors deem it most appropriate to use derivative instruments to alter the Funds' interest rate, currency or credit exposure. The following table sets out the average level of gross notional exposure for the Funds for the financial years ended 31 December 2025 and 31 December 2024:

Fund	31-Dec-2025	31-Dec-2024

(b) Foreign Currency Risk

If the Funds invest directly in foreign currencies or in securities that trade in, and receive revenues in, foreign currencies, or in financial derivatives that provide exposure to foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the functional currency of the Funds, or, in the case of hedging positions, that the Funds' functional currency will decline in value relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by U.S. or foreign governments, central banks or supranational entities such as the International Monetary Fund, or by the imposition of currency controls or other political developments in the United States or abroad. As a result, the Funds' investments in foreign currency denominated securities may reduce the returns of the Funds.

The PIMCO Asia High Yield Bond Fund, Asia Strategic Interest Bond Fund, PIMCO Capital Securities Fund, PIMCO Climate Bond Fund, Commodity Real Return Fund, Diversified Income Fund, Diversified Income Duration Hedged Fund, Diversified Income ESG Fund, Emerging Markets Corporate Bond Fund, PIMCO European High Yield Bond Fund, Global High Yield Bond Fund, Global High Yield Bond ESG Fund, Global Investment Grade Credit Fund, Global Investment Grade Credit ESG Fund, Global Low Duration Real Return Fund, Global Real Return Fund, Income Fund II, Low Average Duration Fund, Low Duration Global Investment Grade Credit Fund, Low Duration Income Fund, PIMCO MLP & Energy Infrastructure Fund, Total Return Bond Fund, US High Yield Bond Fund, US Investment Grade Corporate Bond Fund and US Short-Term Fund had no material foreign currency exposure at 31 December 2025 or 31 December 2024. The following tables set out the total exposure to foreign currency risk in currencies where foreign currency exposure is deemed material (i.e. where, all other variables being equal, the impact of a reasonably possible movement in the foreign exchange rate would result in a significant movement in the net assets) (amounts in thousands):

(c) Interest Rate Risk

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds are likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is useful primarily as a measure of the sensitivity of a fixed income's market price to interest rate (i.e. yield) movements.

All Funds invested primarily in fixed income instruments and therefore are exposed to the risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. These investments are disclosed in the Schedule of Investments. Any excess cash and cash equivalents are invested at short-term market interest rates.

The sensitivity of the Company's exposure to interest rate risk is included in the overall VaR calculations disclosed in Note 16 (a).

(d) Liquidity Risk

A Fund's exposure to liquidity risk is primarily affected by the redemption of shares. Participating shareholders may redeem some or all of their outstanding shares in accordance with the Prospectus. Redeemable shares

are redeemed at the shareholders demand and are included on the Statement of Assets and Liabilities. The Fund's assets are primarily comprised of readily realisable securities, which can be readily sold to satisfy shareholder redemptions in accordance with the Prospectus. Liquidity risk exists when particular investments are difficult to purchase or sell. Also, illiquid securities may become harder to value especially in changing markets. A Fund's investments in illiquid securities may reduce returns of a Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Funds with principal investment strategies that involve foreign securities, derivatives, or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk.

Additionally, the market for certain investments may become illiquid under adverse market or economic conditions independent of any specific adverse changes in the conditions of a particular issuer. In such cases, a Fund, due to limitations on investments in illiquid securities and the difficulty in purchasing and selling such securities or instruments, may be unable to achieve its desired level of exposure to a certain sector. To the extent that a Fund's principal investment strategies involve securities of companies with smaller market capitalisations, foreign securities, illiquid sectors of fixed income securities, or securities with substantial market and/or credit risk, the Fund will tend to have the greatest exposure to liquidity risk. Further, fixed income securities with longer durations until maturity face heightened levels of liquidity risk as compared to fixed income securities with shorter durations until maturity.

Finally, liquidity risk also refers to the risk of unusually high redemption requests or other unusual market conditions that may make it difficult for a Fund to fully honour redemption requests within the allowable time period. Meeting such redemption requests could require a Fund to sell securities at reduced prices or under unfavourable conditions, which would reduce the value of the Fund. It may also be the case that other market participants may be attempting to liquidate fixed income holdings at the same time as a Fund, causing increased supply in the market and contributing to liquidity risk and downward pricing pressure.

For all Funds, the Company is entitled to limit the number of shares of any Fund redeemed on any Dealing Day to 10% of the total number of shares of that Fund in issue. In this event, the Company shall reduce pro rata any requests for redemption on that Dealing Day and shall treat the redemption requests as if they were received on each subsequent Dealing Day until all the shares to which the original request related have been redeemed.

The Company's Articles of Association contain special provisions where a redemption request received from a shareholder would result in more than 5% of the NAV of shares of any Fund being redeemed by the Company on any Dealing Day. In such a case the Company, at its sole discretion (unless otherwise outlined in the relevant Fund Supplement), may satisfy the redemption request by the transfer in specie (in kind) to the shareholder of assets of the relevant Fund having a value equal to the redemption price for the shares redeemed as if the redemption proceeds were paid in cash less any redemption charge and other expenses of the transfer provided that such a distribution would not be prejudicial to the interests of the remaining shareholders of that Fund. Where the shareholder requesting such redemption receives notice of the Company's intention to elect to satisfy the redemption request by such a distribution of assets, that shareholder may require the Company, instead of transferring those assets, to arrange for their sale and the payment of the proceeds of sale to that shareholder, the cost of which shall be borne by the relevant shareholder.

To mitigate the effects of dilution, the Directors may, at their discretion, make a swing price adjustment to the NAV per share.

The current known liabilities for the Funds are listed on the Statement of Assets and Liabilities and the majority of those liabilities are payable within three months with the exception of financial derivative instrument liabilities and securities sold short. The earliest contractual maturity dates for financial derivative instrument liabilities are disclosed on the Schedule of Investments.

Financial derivative instruments consist of the fair value of forward foreign currency contracts, futures contracts, option contracts and swap agreements as at the financial year end. Financial derivative instruments are financial assets and liabilities that are held for trading, and are acquired principally for the purpose of selling in the short term. As the instruments are not expected to be held to maturity or termination, the current fair value represents the estimated cash flow that may be required to dispose of the positions. Future cash flows of the Funds and realised liabilities may differ from current liabilities based on changes in market conditions.

The Investment Advisors manage liquidity risk by monitoring the portfolios and considering investments deemed to be illiquid or not readily and easily sold, to ensure there are sufficient liquid assets to cover the outstanding liabilities of the Funds.

Certain Funds may have a concentrated shareholder base where large institutional type shareholders hold a significant portion of the net assets of a Fund. This exposes other shareholders in the Fund to certain risks. These risks include the risk that a large portion of the assets of a Fund may be redeemed on any day which could impact the overall viability of the Fund or could impact the ability of other shareholders, who have not submitted redemption requests on that day, to redeem from the Fund e.g. where it may be necessary to impose a redemption gate. The below Funds are exposed to significant concentration risk as they have shareholders who own more than 20% of the Net Assets of the Fund. Such concentration of shareholders interests could have a material effect on the Fund in the event this shareholder requests the withdrawal of substantial amounts of capital. Shareholding percentage amounts owned by the Allianz Group, Funds of the Company, Affiliated Funds with the Company and employees of the Investment Advisors are not disclosed below as these are separately disclosed in Note 14.

(e) Credit and Counterparty Risks

The Funds will be exposed to credit risk to parties with whom they trade and will also bear the risk of settlement default. The Funds trade with counterparties which at the present time have minimum rating of BBB/Baa2. The Funds minimise concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges, where applicable. OTC derivative transactions are subject to the risk that a counterparty to the transaction will not fulfil its contractual obligations to the other party, as many of the protections afforded to centrally cleared derivative transactions might not be available for OTC derivative transactions. For financial derivatives instruments traded on exchanges or clearinghouses, the primary credit risk is the creditworthiness of the Fund's clearing broker or the exchange or clearinghouse itself. The Funds could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a financial derivatives instruments contract, repurchase agreement or a loan of portfolio securities, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Securities and financial derivative instruments are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that a party to a transaction with a Fund will fail to perform or meet an obligation owed to the Fund. PIMCO, as the Investment Advisors, minimise counterparty risks to the Fund through a number of ways. Prior to entering into transactions with a new counterparty, the PIMCO Counterparty Risk Committee conducts an extensive credit review of such counterparty and must approve the use of such counterparty. Furthermore, pursuant to the terms of the underlying contract, to the extent that unpaid amounts owed to a Fund exceed a predetermined threshold, such counterparty shall advance collateral to the Fund in the form of cash or securities equal in value to the unpaid amount owed to a Fund. The Funds may invest such collateral in securities or other instruments and will typically pay interest to the counterparty on the collateral received. If the unpaid amount owed to each Fund subsequently decreases, the Fund would be required to return to the counterparty all or a portion of the collateral previously advanced.

All transactions in listed securities are settled/paid for upon delivery using approved counterparties. The risk of default is considered minimal, as delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

Master Netting Arrangements Certain Funds may be subject to various netting arrangements ("Master Agreements") with selected counterparties. Master Agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardisation that improves legal certainty. Each type of Master Agreement governs certain types of transactions. Different types of transactions may be traded out of different legal entities or affiliates of a particular organisation, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Funds to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single Master Agreement with a counterparty. For financial reporting purposes, the Statement of Assets and Liabilities generally presents derivative assets and liabilities on a gross basis, which reflects the full risks and exposures prior to netting.

Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under most

Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to \$250,000 (or other applicable currency), depending on the counterparty and the type of Master Agreement. At the present time, U.S. Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of highly rated and readily marketable securities are also permitted, depending on the Master Agreement or its collateral annex. Securities and cash pledged as collateral are reflected as assets on the Statement of Assets and Liabilities as either a component of Financial Assets at fair value through profit or loss (Transferable securities) or Deposits with counterparty (cash). Cash collateral received is not typically held in a segregated account and as such is reflected as a liability on the Statement of Assets and Liabilities as Deposits from counterparty. The fair value of any securities received as collateral is not reflected as a component of NAV. The Funds' overall exposure to counterparty risk can change substantially within a short period, as it is affected by each transaction subject to the relevant Master Agreement.

Master Repurchase Agreements and Global Master Repurchase Agreements (individually and collectively "Master Repo Agreements") govern repurchase, reverse repurchase, and sale-buyback transactions between the Funds and select counterparties. Master Repo Agreements maintain provisions for, among other things, initiation, income payments, events of default, and maintenance of collateral. The fair value of transactions under the Master Repo Agreement, collateral pledged or received, and the net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments.

Master Securities Forward Transaction Agreements ("Master Forward Agreements") govern certain forward settling transactions, such as TBA securities, delayed-delivery or sale-buyback transactions by and between the Funds and select counterparties. The Master Forward Agreements maintain provisions for, among other things, initiation and confirmation, payment and transfer, events of default, termination, and maintenance of collateral. The fair value of forward settling transactions, collateral pledged or received, and the net exposure by counterparty as of financial year end is disclosed in the Notes to Schedule of Investments.

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes ("ISDA Master Agreements") govern bilateral OTC derivative transactions entered into by the Funds with select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level. These amounts, if any, may (or if required by law, will) be segregated with a third party depository. The fair value of OTC financial derivative instruments, collateral received or pledged, and net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments. The Investment Advisors conduct extensive research and analysis to identify and quantify credit risk within the Funds. Credit exposure within the Funds is reviewed frequently by the Investment Advisors to generate returns either through investments made or avoided. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. The tables below summarise the credit rating composition for each of the Fund's Net Assets.

Substantially all of the Company's transferable securities as of 31 December 2025 and 31 December 2024 are held on a fiduciary basis by State Street Custodial Services (Ireland) Limited (the "Depository"). These assets are held in segregated accounts of each Fund (in accordance with Central Bank UCITS Regulations), reducing the credit risk of holding the assets in safekeeping. The Company will however be exposed to the credit risk of a credit institution holding its deposits.

The long term credit rating of State Street Corporation, the Depository's ultimate parent, as of 31 December 2025 was AA- (31 December 2024: AA-) as issued by Fitch rating agency.

17. TRANSACTIONS WITH CONNECTED PERSONS FOR THE FUNDS DISTRIBUTED IN HONG KONG

Connected Persons of the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depository and the Directors of the Company are those as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong (the "SFC Code"). All transactions entered into during the financial year between the Funds authorised by the SFC ("SFC-authorised Funds"), as outlined in the general characteristics section of the annual report, and the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depository and the Directors of the Company and their respective Connected Persons were carried out in the ordinary course of business and on normal commercial terms.

Notes to Financial Statements (Cont.)

Transactions executed through a broker who is a Connected Person of the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depositary and the Directors of the Company were as follows for the financial years ended 31 December 2025 and 31 December 2024:

Fund	31-Dec-2025		31-Dec-2024	
	Total Purchases and Sales ('000)	% of Total Purchases and Sales	Total Purchases and Sales ('000)	% of Total Purchases and Sales

US High Yield Bond Fund	221,580	0.51	763,376	7.81

There was no commission charged on the transactions in the above table for the financial years ended 31 December 2025 and 31 December 2024.

Details of shares held in SFC-authorized Funds by Directors of the Company for the financial years ended 31 December 2025 and 31 December 2024 are disclosed in Note 14. Details of fees paid to Directors of the Company for the financial years ended 31 December 2025 and 31 December 2024 are disclosed in Note 13.

Details of the value of the outstanding shares owned by Connected Persons of the Manager, the Investment Advisors and/or Sub-Investment Advisors over 20% of Net Assets of SFC-authorized Funds as at 31 December 2025 and 31 December 2024 are disclosed in Note 14. Details of fees paid to the Manager, the Investment Advisors and/or Sub-Investment Advisors are disclosed in Note 13 and in the Statement of Operations.

Directors and Officers of the Depositary did not hold shares in any of the SFC-authorized Funds for the financial years ended 31 December 2025 and 31 December 2024. As disclosed in Note 13, the fees and expenses of the Depositary are paid by the Manager from the Management Fee, or by the Investment Advisors. As disclosed in Note 4, all cash at bank balances of the SFC-authorized Funds are held either by State Street Bank and Trust Co., as agent for the Depositary, or directly with a sub-depositary. Interest may be earned or charged to the SFC-authorized Funds by the Depositary on these cash balances.

18. SHARE CAPITAL

(a) Authorised Shares

The authorised share capital of the Company is €38,092 divided into 30,000 subscriber shares at €1.27 each and 500,000,000,000 participating shares at no par value initially designated as unclassified shares.

(b) Subscriber Shares

All but seven of the original 30,000 subscriber shares have been redeemed. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Board, this disclosure reflects the nature of the Company's business as an investment fund.

(c) Redeemable Participating Shares

The issued participating share capital is at all times equal to the NAV of the Funds. Redeemable participating shares are redeemable at the shareholders'

option and are classified as financial liabilities. The movement in the number of participating shares for the financial years ending 31 December 2025 and 31 December 2024 are as follows (amounts are in thousands):

19. NET ASSET VALUES

Each Fund's net assets attributable to redeemable participating shareholders, shares issued and outstanding and NAV per share for the last three financial years are as follows (amounts are in thousands, except per share amounts). The NAV per share disclosed in these financial statements may include adjustments required by FRS 102, which may cause shareholders' NAVs or total returns to differ from those disclosed in these financial statements. Net Assets divided by shares issued and outstanding may not equal the NAV per share due to rounding:

20. REGULATORY AND LITIGATION MATTERS

The Company is not named as a defendant in any material litigation or arbitration proceedings and is not aware of any material litigation or claim pending or threatened against it.

The foregoing speaks only as of 31 December 2025.

21. CREDIT FACILITY

PIMCO Funds: Global Investors Series plc acting on behalf of each of the PIMCO Asia High Yield Bond Fund, the Global High Yield Bond Fund and the US High Yield Bond Fund (collectively the "Funds" and each a "Fund") entered into a sixth amended and restated credit facility dated as of 15 August 2025 (the "Credit Agreement") between, amongst others, the

Funds, certain lenders including MUFG Bank Ltd. ("MUFG") (as lenders) and MUFG in its capacity as agent and lead arranger.

Each Fund is permitted to utilise the facility for temporary purposes in accordance with the relevant Fund's investment policies.

The aggregate commitment available for utilisation by the Funds is, subject to the terms of the Credit Agreement, \$180,000,000.

The sub-limits for each Fund are: Global High Yield Bond Fund-\$85,000,000; US High Yield Bond Fund-\$50,000,000 and PIMCO Asia High Yield Bond Fund-\$45,000,000. The total amount available to the Funds, together with the other borrowers (collectively, the "Borrowers") is, subject to the terms of the Credit Agreement, \$195,000,000 (the "Aggregate Commitment Amount"). The Borrowers may, subject to the terms of the Credit Agreement, request an increase of up to \$405,000,000 to the Aggregate Commitment Amount. The aggregate commitment amount following any increase shall not exceed \$600,000,000. This increased commitment would be available for utilisation by the Borrowers in accordance with the terms of the Credit Agreement.

There are two rates of interest available under the Credit Agreement. Each Fund, when utilising a loan will elect which interest rate will apply to all or a portion of the relevant loan with the applicable interest rate being determined by reference to (i) the Alternate Base Rate or (ii) the Daily Simple SOFR.

The Alternate Base Rate is for any day, the greater of (i) Federal Funds Rate (as defined in the Credit Agreement) or (ii) the Overnight Bank Funding Rate (as defined in the Credit Agreement), as in effect on such date. Each loan bearing interest calculated by reference to the Alternate Base Rate shall bear interest on the outstanding principal amount thereof for the period commencing on the date when such loan is made up to but not including the date such loan is repaid in full, at a rate per annum equal to the Alternative Base Rate plus the Applicable Margin (being 1.125%).

The Daily Simple SOFR means for any day (a "SOFR Rate Day") a rate per annum equal to the greater of (a) SOFR (as defined in the Credit Agreement) for the day (a "SOFR Determination Day") this is three U.S. Government Securities Business Days (as defined in the Credit Agreement) prior to (i) if such SOFR Rate Day is a U.S. Government Securities Business Day, such SOFR Rate Day or (ii) if such SOFR Rate Day is not a U.S. Government Securities Business Day, the U.S. Government Securities Business Day immediately preceding such SOFR Rate Day, in each case, as such SOFR is published by the SOFR Administrator (as defined in the Credit Agreement) on the SOFR Administrator's Website (as defined in the Credit Agreement), and (b) an interest rate of 0%. If by 5:00 p.m. (New York City time) on the second (2nd) U.S. Government Securities Business Day immediately following any SOFR Determination Day, SOFR in respect of such SOFR Determination Day has not been published on the SOFR Administrator's Website and a Benchmark Replacement Date with respect to the Daily Simple SOFR has not occurred, then SOFR for such SOFR Determination Day will be SOFR as published in respect of the first preceding U.S. Government Securities Business Day for which such SOFR was published on the SOFR Administrator's Website; provided that any SOFR determined pursuant to this sentence shall be utilised for purposes of calculation of Daily Simple SOFR (as defined in the Credit Agreement) for no more than three (3) consecutive SOFR Rate Days. Any change in Daily Simple SOFR due to a change in SOFR shall be effective from and including the effective date of such change in SOFR without notice to the Borrower effective date of such change in SOFR without notice to the Borrower.

Each loan bearing interest calculated by reference to the Daily Simple SOFR shall bear interest on the outstanding principal amount thereof, for the period commencing with the date such loan is made or continued through and including the date such loan is repaid in full, at a rate per annum equal to Daily Simple SOFR plus the Applicable Margin (being 1.125%).

Any loan is, subject to the terms of the Credit Agreement, repayable on the earlier of (a) 60 days after drawdown and (b) 14 August 2026 unless repayable sooner in accordance with the terms of the Credit Agreement.

All loans are provided on an unsecured basis. The recourse of the Lenders to a Fund is limited to the assets of such Fund.

As at 31 December 2025 and 31 December 2024, no Fund had borrowings under the Credit Agreement.

22. SECURITIES FINANCING TRANSACTIONS REGULATION

Securities Financing Transactions Regulation ("SFTR") introduces reporting and disclosure requirements for Securities Financing Transactions ("SFTs") and total return swaps. SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending/borrowing,
- a buy-sellback or sale-buyback transaction, or
- a margin lending transaction.

(a) Global Data and Concentration of SFT Counterparties

As at 31 December 2025 the Funds held total return swaps and the following types of SFTs:

- Repurchase Agreements
- Reverse Repurchase Agreements
- Sale-Buyback Financing Transactions

The fair value of assets/(liabilities) across all SFTs and total return swaps as at 31 December 2025, grouped by SFT type(s) and the ten largest counterparties are as follows (if fewer than ten counterparties are used then all counterparties are detailed).

The collateral fair value for Repurchase Agreements includes interest accrued.

Master Forward Agreements cover a combination of buy-sellback transactions, sale-buyback transactions and other financing transactions not included above. The total amount of the collateral received as at 31 December 2025 and 31 December 2024 for all transactions entered into under these Agreements is included above. It is not possible to separately analyse the collateral for each specific SFT.

ISDA Agreements cover a combination of swap contracts and the total amount of the collateral for these agreements is included above.

A portion of the collateral disclosed relates to derivatives not in scope of SFT.

(iv) Data on Reuse of Collateral:

Securities received as collateral are not reused as of 31 December 2025 or 31 December 2024.

Collateral received as at 31 December 2025 and 31 December 2024 is held within the custodial network of State Street Bank and Trust.

(v) Safekeeping of Collateral Granted:

The collateral pledged by the Funds as of 31 December 2025 and 31 December 2024 are held by the counterparties in accounts other than segregated or pooled accounts.

Notes to Financial Statements (Cont.)

(c) Returns/Costs

The tables below detail the data on returns and costs for each type of SFT and total return swap for the financial years ended 31 December 2025 and 31 December 2024. Amounts are shown in the base currency of the Funds.

All returns from SFT derivative transactions will accrue to the Fund and are not subject to any returns sharing agreement with the Company's Manager or any other third parties.

For total return swaps transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sale price and are part of the gross investment performance of each Fund. Returns are identified as the realised gains and change in unrealised gains on the swap contract during the financial year which are included within Net realised gain/(loss) on financial derivative instruments and Net change in unrealised appreciation/(depreciation) on financial derivative instruments within the Statement of Operations.

23. SIGNIFICANT EVENTS

In February 2022, Russia launched an invasion of Ukraine. As a result, Russia and other countries, persons and entities that provided material aid to Russia's aggression against Ukraine, have been the subject of economic sanctions and import and export controls imposed by countries throughout the world, including the United States. Such measures, including the United States' enforcement of sanctions or other similar measures on various Russian entities and persons, and the Russian government's response, have had and may continue to have an adverse effect on the Russian, Belarusian and other securities, instruments and economies, which may, in turn, negatively impact the Funds. The extent, duration and impact of Russia's military action in Ukraine, related sanctions and retaliatory actions are difficult to ascertain, but could be significant and have severe adverse effects on the region, including significant adverse effects on the regional, European and global economies and the markets for certain securities and commodities, such as oil and natural gas, as well as other sectors. Further, the Funds may have investments in securities and instruments that are economically tied to the region and may have been negatively impacted by the sanctions and counter-sanctions by Russia, including declines in value and reductions in liquidity. The sanctions may cause the Funds to sell portfolio holdings at a disadvantageous time or price or to continue to hold investments that the Funds may no longer seek to hold.

Since October 2023, there has been ongoing armed conflict in Israel and Gaza, and beginning in April 2024 Iran and Israel have engaged in military offensives against each other in a rapidly developing situation. The Funds may have invested in securities and instruments that are economically tied to these conflict zones. Such investments may have been negatively impacted by sanctions and counter sanctions, if applicable, including declines in value and reductions in liquidity. The reductions in liquidity in investments may cause the Funds to sell portfolio holdings at a disadvantageous time or price hold. PIMCO will continue to actively manage these positions in the best interests of the Funds and its shareholders.

The United States' enforcement of restrictions on U.S. investments in certain issuers and tariffs on goods from certain other countries has contributed to and may continue to contribute to international trade tensions and may impact portfolio securities. In April 2025, the U.S. government indicated an intent to alter its approach to international trade policy, including in some cases renegotiating, modifying or terminating certain bilateral or multi-lateral trade arrangements with foreign countries, and it has proposed to take and/or taken related actions, including the imposition of or stated potential imposition of a broad range of tariffs. The imposition of tariffs, trade restrictions, currency restrictions or similar actions (or retaliatory measures taken in response) could lead to, for example, price volatility, reduced market sentiment, and changes in inflation expectations. These and other geopolitical events may contribute to increased instability in the U.S. and global economies and markets, which may have an adverse effect on the performance of the Funds and their investments.

On 14 April 2025, the distribution frequency of all Administrative Classes of the PIMCO Balanced Income and Growth Fund and all Institutional, Investor Income, and Investor Income II Classes of the PIMCO Capital Securities Fund were changed from quarterly to monthly.

On 29 May 2025, the existing 15 bps Management Fee waiver of the PIMCO Emerging Markets Opportunities Fund was removed, and the Unified Fee for all Classes of the Fund was reduced by 16 bps.

On the same date, the Management Fee waiver for the H Institutional Class of Euro Credit Fund was extended by one year until 30 June 2026.

On 15 August 2025, the credit facility agreement entered into by PIMCO Funds: Global Investors Series plc acting on behalf of the PIMCO Asia High Yield Bond Fund, the Global High Yield Bond Fund, and the US High Yield Bond Fund with certain lenders including MUFG Bank Ltd. ("MUFG") was amended.

On 29 August 2025, the Management Fee waiver on the H Institutional Class for the UK Corporate Bond Fund was extended by one year to 30 August 2026.

On 13 November 2025, a Management Fee waiver of 10 bps was introduced for E Class of the PIMCO European Short-Term Opportunities Fund for three years until 12 November 2028.

Other than the above, there were no other significant events during the financial year.

24. SUBSEQUENT EVENTS

On 19 February 2026 the Company was approved by the FCA under the Overseas Funds Regime.

On 24 March 2026, the Supplement for UK Corporate Bond Fund was updated to incorporate the benchmark changed from ICE BofA Sterling Non-Gilt Index to ICE BofA Sterling Corporate Index.

On 14 April 2026, the Supplement for the Strategic Income Fund was updated to amend the distribution frequency of the Income and Income II share classes from quarterly to monthly.

On 15 April 2026, the Company's Prospectus was updated to comply with the requirements pertaining to the use of liquidity management tools ("LMTs") introduced by Directive (EU) 2024/927 (the "Omnibus Directive"). The Fund Supplements of the Diversified Income Duration Hedged Fund, the Emerging Local Bond ESG Fund, and the Emerging Markets Bond ESG Fund were also updated to amend the indices' names to reflect a rebranding of the JPM ESG indices.

On 21 April 2026, the Supplement for the PIMCO Balanced Income and Growth Fund was updated to amend the distribution frequency of the Income and Income II share classes from quarterly to monthly and to reduce the maximum allowable percentage holding in collective undertakings to 10%.

On the same date, the Global Bond Opportunities Fund was approved by the Central Bank.

Other than the above, there were no other significant events after the financial year end.

25. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board on 23 April 2026.

The Directors present to the shareholders the audited financial statements of the Company for the financial year ended 31 December 2025.

DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Irish Law and Generally Accepted Accounting Practice in Ireland including the Financial Reporting Standard 102 ("FRS 102"), "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, the Companies Act 2014 and the UCITS Regulations.

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the Notes to the Financial Statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

DIRECTORS' COMPLIANCE STATEMENT

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations and have conducted a review during this financial year of any such arrangements or structures that have been put in place. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

EMPLOYEES

The Company had no employees during the financial years ended 31 December 2025 or 31 December 2024.

STATEMENT OF RELEVANT AUDIT INFORMATION

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information of which the Company's auditor is unaware; and

- he/she has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

RESULTS, ACTIVITIES AND FUTURE DEVELOPMENTS

The results of operations and dividends declared are set out on the Statement of Operations on pages 94 through 113. A review of the Funds' investment performance and portfolio insights is contained on pages 6 through 68.

PRINCIPAL RISKS AND UNCERTAINTIES

Details of the financial risk management objectives and policies of the Company and the exposure of the Company to market price risk, foreign currency risk, interest rate risk, liquidity risk, and credit and counterparty risk are disclosed in Note 16 in the Notes to Financial Statements.

SIGNIFICANT EVENTS

A list of the significant events affecting the Company during the financial year is disclosed in Note 23.

SUBSEQUENT EVENTS

A list of the significant events affecting the Company after the financial year end is disclosed in Note 24.

ACCOUNTING RECORDS

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept at State Street Fund Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

CORPORATE GOVERNANCE STATEMENT

The Company is subject to and complies with Irish statute comprising the Companies Act 2014 and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as may be amended (the "UCITS Regulations"), and the Listing Rules of Global Exchange Market ("GEM") of Euronext Dublin as applicable to Investment Funds. The Board of Directors (the "Board") have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies, as published by the Irish Fund Industry Association in December 2011 (the "IFIA Code"). The Board has adopted all corporate governance practices and procedures of the IFIA Code.

The Board has assessed the measures included in the IFIA Code as being consistent with its corporate governance practices and procedures for the financial year. Each of the service providers engaged by the Company is subject to their own corporate governance requirements.

Financial Reporting Process – description of main features

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. These include appointing the Administrator, State Street Fund Services (Ireland) Limited, to maintain the books and records. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. The Administrator is also contractually obliged to prepare for review and approval by the Board the annual report including financial statements intended to give a true and fair view and the half yearly financial statements.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. From time to time the Board also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Administrator has operating

responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Board.

Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and ensuring the processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board has also put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

Control Activities

The Administrator maintains control structures to manage the risks over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account in the financial statements and the related notes in the Company's annual report. Examples of control activities exercised by the Administrator include analytical review procedures, reconciliations and automated controls over IT systems. The method of valuing securities and other assets when prices are not available from external independent sources is disclosed in Note 3 in the Notes to Financial Statements.

Information and Communication

The Company's policies and the Board's instructions with relevance for financial reporting are updated and communicated via appropriate channels, such as e-mail, correspondence and meetings to ensure that all financial reporting information requirements are met in a complete and accurate manner.

Monitoring

The Board receives regular presentations and reviews reports from the Depositary, Investment Advisors and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the Independent Auditors.

Capital Structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital.

There are no restrictions on voting rights.

Powers of the Directors

With regard to the appointment and replacement of Directors, the Company is governed by its Articles of Association, Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Listing Rules of GEM of Euronext Dublin as applicable to Investment Funds. The Articles of Association themselves may be amended by special resolution of the shareholders.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator and other parties, subject to the supervision and direction by the Directors. The Directors have delegated the day to day administration of the Company to the Administrator and the investment management and distribution functions to the Investment Advisors. Consequently none of the Directors is an executive Director.

The Articles of Association provide that the Directors may exercise all the powers of the Company to borrow money, to mortgage or charge its undertaking, property or any part thereof and may delegate these powers to the Investment Advisors.

The Directors may, at any time and from time to time temporarily suspend the calculation of the Net Asset Value of a particular Fund and the issue, repurchase and conversion of shares in any of the following instances:

(a) during any period (other than ordinary holiday or customary weekend closings) when any market or Recognised Exchange is closed and which is the main market or Recognised Exchange for a significant part of investments of the relevant Fund, or in which trading thereon is restricted or suspended;

(b) during any period when an emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the relevant class is not practically feasible; or it is not possible to transfer monies involved in the acquisition or disposition of investments at normal rates of exchange; or it is not practically feasible for the Directors or their delegate fairly to determine the value of any assets of the relevant Fund;

(c) during any breakdown in the means of communication normally employed in determining the price of any of the investments of the relevant Fund or of current prices on any market or Recognised Exchange;

(d) when for any reason the prices of any investments of the relevant class cannot be reasonably, promptly or accurately ascertained;

(e) during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the investments of the relevant class cannot, in the opinion of the Directors, be carried out at normal rates of exchange;

(f) for the purpose of winding up the Company or terminating any Fund; or

(g) if any other reason makes it impossible or impracticable for their delegate to fairly determine the value of substantial portion of the investments of the Company or any Fund.

Notice of any such suspension and notice of the termination of any such suspension shall be given immediately to the Central Bank and to Euronext Dublin and will be notified to applicants for shares or to shareholders requesting the repurchase of shares at the time of application or filing of the written request for such repurchase. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

Registered shares may be transferred by instrument in writing. The instrument of transfer must be accompanied by a certificate from the transferee that it is not acquiring such shares on behalf of or for the benefit of a U.S. Person. In the case of the death of one of joint shareholders, the survivor or survivors will be the only person or persons recognised by the Administrator as having any title to or interest in the shares registered in the names of such joint shareholders. The Directors may decline to register a transfer if they are aware or reasonably believe the transfer would result in the beneficial ownership of shares by a person in contravention of any restrictions on ownership imposed by the Directors or might result in legal, regulatory, pecuniary, taxation or material administrative disadvantage to the relevant Fund or shareholders generally.

Shareholder Meetings

The Annual General Meeting of the Company will usually be held in Dublin, normally during the month of September or such other date as the Directors may determine. Notice convening the Annual General Meeting in each year at which the audited financial statements of the Company will be presented (together with the Directors' and Auditors' Reports of the Company) will be sent to shareholders at their registered addresses not less than 21 clear days before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law.

Each of the shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those shares. Matters may be determined by a meeting of shareholders on a show of hands unless a poll is requested by any shareholder having the right to vote at the meeting or unless the chairman of the meeting requests a poll. Each shareholder has one vote on a show of hands. Each share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll.

No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other share class or any voting rights in relation to matters relating solely to any other share class.

Any resolution to alter the class rights of the shares requires the approval of three quarters of the holders of the shares represented or present and voting

at a general meeting of the class. The quorum for any general meeting of the class convened to consider any alteration to the class rights of the shares shall be such number of shareholders being two or more persons whose holdings comprise one third of the shares.

Each of the shares other than subscriber shares entitles the shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Fund in respect of which the shares have been issued, save in the case of dividends declared prior to becoming a shareholder.

Subscriber shares entitle the shareholders holding them to attend and vote at all general meetings of the Company but do not entitle the holders to participate in the dividends or net assets of the Company.

Composition and Operation of Board and Committees

There are six Directors currently, all of whom are non-executive Directors and three of whom are independent of the Investment Advisors. The Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Irish Companies Act 2014. The Board meets at least quarterly during each calendar year. The Board has an audit committee, currently consisting of the three Independent Directors, which met four times during the financial year under review.

CONNECTED PERSONS TRANSACTIONS

Transactions carried out with the Manager or depositary to a UCITS; and the delegates or sub-delegates of such a Manager or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of such a Manager, depositary, delegate or sub-delegate (connected persons) must be carried out as if effected on normal commercial terms, negotiated at arm's length and only when in best interests of the shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that connected persons transactions are carried out as described above and that they have been complied with during the financial year.

DIRECTORS

The Directors who held office during the financial year ended 31 December 2024 were:

V. Mangala Ananthanarayanan – appointed 30 June 2016
Ryan P. Blute – appointed 30 May 2014
Craig A. Dawson – appointed 6 May 2009
David M. Kennedy – appointed 16 April 1999
Myles Lee – appointed 15 October 2024
Frances Ruane – appointed 28 February 2018

The Articles of Association do not provide for the retirement of Directors by rotation.

SECRETARY

Walkers Corporate Services (Ireland) Limited held the office of Secretary for the financial year ended 31 December 2024.

DIRECTORS' AND SECRETARY'S INTERESTS IN SHARES, DEBENTURES AND CONTRACTS

At 31 December 2025, V. Mangala Ananthanarayanan held 5,319.15 (31 December 2024: 5,319.15) shares of the PIMCO Capital Securities Fund, 3,619.69 (31 December 2024: 3,619.69) shares of the Global Bond Fund and 27,543.65 (31 December 2024: 27,543.65) shares of the Income Fund, all Funds of the Company.

At 31 December 2025, Ryan P. Blute held 28,827.68 (31 December 2024: 28,827.68) shares of the Low Average Duration Fund and 50,751.14 (31 December 2024: 50,751.14) shares of the Low Duration Income Fund, all Funds of the Company.

At 31 December 2025, Craig A. Dawson held 18,118.23 (31 December 2024: 18,118.23) shares of the PIMCO Capital Securities Fund, 8,164.92 (31 December 2024: 8,164.92) shares of the Low Duration Income Fund and 1,775.83 (31 December 2024: 1,775.83) shares of the Low Duration Opportunities Fund, all Funds of the Company.

At 31 December 2025, David M. Kennedy held 16,786.79 (31 December 2024: 16,786.79) shares of the PIMCO Balanced Income and Growth Fund, 3,706.36 (31 December 2024: 3,939.17) shares of the Emerging Markets Bond Fund and 21,030.49 (31 December 2024: 21,030.49) shares of the Global Investment Grade Credit Fund, all Funds of the Company.

At 31 December 2025, Myles Lee held 9,271.85 (31 December 2024: 9,271.85) shares of PIMCO Asia High Yield Bond Fund and 598.86 (31 December 2024: 598.86) shares of Euro Bond Fund, all Funds of the Company.

The Secretary held no interest in the shares and debentures of the Company as at 31 December 2025 and 31 December 2024.

None of the Directors have a service contract with the Company.

LEGAL ADVISOR AS TO IRISH LAW

Dillon Eustace LLP was the Legal Advisor (as to Irish Law) to the Company during the financial year ended 31 December 2025.

INDEPENDENT AUDITORS

The Independent Auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with section 383 of the Companies Act 2014.

On behalf of the Board of Directors

Director: Craig A. Dawson

Director: David M. Kennedy

Date: 23 April 2026

Independent auditors' report to the members of PIMCO Funds: Global Investors Series plc

Report on the audit of the financial statements

Opinion

In our opinion, PIMCO Funds: Global Investors Series plc's financial statements:

- give a true and fair view of the company's and funds' assets, liabilities and financial position as at 31 December 2025 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Statement of Assets and Liabilities as at 31 December 2025;
- the Statement of Operations for the year then ended;
- the Statement of Changes in Net Assets for the year then ended;
- the Schedule of Investments as at 31 December 2025; and
- the notes to the financial statements, which include a description of the accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

Audit scope

- The company is an open-ended investment company with variable capital and engages PIMCO Global Advisors (Ireland) Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the company. We tailored the scope of our audit taking into account the types of investments within the funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the company operates. We look at each of the funds at an individual level.

Key audit matters

- Valuation of financial assets and financial liabilities at fair value through profit or loss.
- Existence of financial assets and financial liabilities at fair value through profit or loss.

Materiality

- Overall materiality: 50 basis points (2024: 50 basis points) of Net Asset Value ("NAV") at 31 December 2025 (2024: 31 December 2024) for each of the company's funds.
- Performance materiality: 75% (2024: 75%) of overall materiality.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
Valuation of financial assets and financial liabilities at fair value through profit or loss.	
Refer to the Schedule of Investments for each of the funds, the significant accounting policies set out in note 2 and Investments at fair value and fair value hierarchy set out in note 3. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Assets and Liabilities of the funds at 31 December 2025 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland. We considered the valuation of financial assets and financial liabilities at fair value through profit or loss to be a key audit matter as it represents the principal element of the financial statements.	We tested the valuation of transferable securities, other financial assets and the fair value of securities sold short at 31 December 2025 to third party vendor sources where available. In the absence of third party vendor sources being available, we considered the methods and data used by management to develop the estimated fair values and we completed alternative testing procedures for certain securities. This includes but is not limited to, obtaining management's pricing support and considering recent transactions. In some instances, we tested the valuation of securities with the assistance of our internal valuation experts to develop an independent estimate of the fair value and to determine whether management's fair value estimate was reasonable. Investment funds comprise Exchange Traded Funds and Collective Investment Schemes. We tested the valuation of Exchange Traded Funds to third party vendor sources. In respect of Collective Investment Schemes we agreed the fair value to an independent confirmation from the underlying transfer agent. We tested the fair value of repurchase agreements by agreeing the fair value to counterparty statements. We tested the valuation of financial derivative instruments with the assistance of our internal valuation expert to develop an independent estimate of the fair value and to determine whether management's fair value estimate was reasonable, or we obtained third party vendor prices where available. No material misstatements were noted from the performance of these procedures.

Existence of financial assets and financial liabilities at fair value through profit or loss.

Refer to the Schedule of Investments for each of the Funds, the significant accounting policies set out in note 2 and Investments at fair value and fair value hierarchy set out in note 3. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Assets and Liabilities of each Fund are held in each Fund's name at 31 December 2025. We considered the existence of financial assets and financial liabilities at fair value through profit or loss to be a key audit matter as it represents the principal element of the financial statements.

We obtained independent confirmation from the Depositary or independent counterparties of the holdings of transferable securities as at 31 December 2025. We reconciled the holdings per the confirmations to the holdings per the accounting records and a sample of reconciling items noted were tested to underlying supporting documentation.

For the fair value of securities sold short we obtained independent confirmations from the counterparties.

Investment funds comprise Exchange Traded Funds and Collective Investment Schemes. For Exchange Traded Funds we obtained an independent confirmation from the Depositary. In respect of Collective Investment Schemes we obtained an independent confirmation from the underlying transfer agent.

For repurchase agreements we obtained independent confirmations from the counterparties.

For financial derivative instruments we obtained independent confirmations from the counterparties where possible. In the absence of the independent counterparty confirmation being available, for certain positions we completed alternative testing procedures.

For forward foreign currency contracts, we liquidated to bank statements where possible. Alternatively, where material and the maturity date is post audit sign-off date, we independently confirmed with counterparties.

No material misstatements were noted from the performance of these procedures.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2025 there are 56 funds operating.

The company's Statement of Assets and Liabilities, Statement of Operations, and Statement of Changes in Net Assets are an aggregation of the positions and results of the funds.

The directors control the affairs of the company and are responsible for the overall investment policy which is determined by them. The company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the company. The Manager has delegated certain responsibilities to the Investment Advisors and to State Street Fund Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The company has appointed State Street Custodial Services (Ireland) Limited (the "Depositary") to act as Depositary of the company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the funds as follows:

Overall materiality and how we determined it	50 basis points (2024: 50 basis points) of Net Asset Value ("NAV") at 31 December 2025 (2024: 31 December 2024) for each of the company's funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the company is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2024: 75%) of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with those charged with governance that we would report to them misstatements identified during our audit above 10% of overall materiality, for NAV per share impacting differences (2024: above 10% of overall materiality, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the ability of the company and the funds to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the key indicators that are monitored with respect to the going concern assumption and management's future plans for the funds over the going concern period (being 12 months from the date of approval of the financial statements);
- Reviewing the available board minutes during the period under audit and those available up to the date of this report;
- Considering post year end capital activity as recorded in the underlying accounting records;
- Making enquiries of management with respect to any planned significant redemptions of which they have been informed of;
- Considering the liquidity risk management techniques which are available to the company and funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ability of the company and the funds to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the ability of the company and the funds to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities set out on page 1001, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the ability of the company and the funds to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to Central Bank of Ireland regulations applicable to the company and the funds, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to management override of controls. Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;

- Identifying and testing journal entries that met our specific risk based criteria;
- Testing material accounting estimates and judgements and considered potential for management bias;
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing; and
- Reviewing minutes of the meetings of the Board of Directors.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at: https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Other exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Mary Ruane

Depository's Report

We have enquired into the conduct of PIMCO Funds: Global Investors Series plc (the "Company") for the financial year ended 31 December 2025, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

RESPONSIBILITIES OF THE DEPOSITARY

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial period in accordance with the provisions of the Company's constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

BASIS OF DEPOSITARY OPINION

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Constitution and the appropriate regulations.

OPINION

In our opinion, the Company has been managed during the financial period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited,
78 Sir John Rogerson's Quay,
Dublin D02 HD32
Ireland

Date: 23 April 2026

PIMCO Global Advisors (Ireland) Limited (the "Manager"), in accordance with its obligations under Directive 2009/65/EC, as amended (the "UCITS Directive") is required to have remuneration policies and practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risktakers, whose professional activities have a material impact on the risk profiles of the Manager or any Undertakings for Collective Investment in Transferable Securities ("UCITS") under management, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager or PIMCO Funds: Global Investors Series plc (the "Company").

The remuneration policy also includes information on the integration of sustainability risks in the Manager's remuneration procedures, as required by the EU Sustainable Finance Disclosure Regulation (2019/2088). There have not been any material updates to the Manager's remuneration policy during the period.

Remuneration consists of all forms of payments or benefits made directly by, or indirectly, but on behalf of the Manager, in exchange for professional services rendered by staff. This shall include where appropriate: (i) all forms of payments or benefits paid by the Manager; (ii) any amount paid by the Company, including any portion of performance fees; and/or (iii) any transfer of units or shares of any Company; in exchange for professional services rendered by the Identified Staff. Fixed remuneration means payments or benefits without consideration of any performance criteria. Variable remuneration means additional payments or benefits depending on performance or, in certain cases, other contractual criteria.

Disclosures are calculated in accordance with the Manager's Remuneration policy and are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly for the Manager ("Delegates").

The amount of the total remuneration awarded by the Manager to its staff in respect of the financial year ending 31 December 2025 is €4,053,798. This figure is comprised of fixed remuneration of €2,635,864 and variable remuneration of €1,417,934. There were a total of 24 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager, in respect of the financial year ending 31 December 2025, to its senior management and to other members of its staff whose actions have a material impact on the risk profile of the Manager or its Funds was €2,622,653.

The amount of total remuneration awarded by Delegates to their Identified Staff which has been attributed to the sub-funds in respect of the financial year ended 31 December 2025 is \$17,055,666. This figure is comprised of fixed remuneration of \$122,526 and variable remuneration of \$16,933,140. There were a total of 56 beneficiaries of the remuneration described above.

(a) The PIMCO Asia High Yield Bond Fund is investing in shares of an affiliated fund.

(b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Diversified Income ESG Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Emerging Markets Bond Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Emerging Markets Short-Term Local Currency Fund is investing in shares of an affiliated fund.		
Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.		
Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The PIMCO European Short-Term Opportunities Fund is investing in shares of an affiliated fund.

(b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Global Bond Ex-US Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Income Fund II is investing in shares of an affiliated fund.

(b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The Low Duration Income Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The StocksPLUS™ Fund is investing in shares of an affiliated fund.

(b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The PIMCO TRENDS Managed Futures Strategy Fund is investing in shares of an affiliated fund.		
Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.		
Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

(a) The US Short-Term Fund is investing in shares of an affiliated fund.

(b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

Portfolio Turnover Rate

This report has been prepared in support of the Shareholder Rights Directive II disclosures to institutional investors.

The length of time a Fund has held a particular security is not generally a consideration in investment decisions. A change in the securities held by a Fund is known as “portfolio turnover.” Each Fund may engage in frequent and active trading of portfolio securities to achieve its investment objective, particularly during periods of volatile market movements. High portfolio turnover may involve correspondingly greater transaction costs, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestments in other securities, which are borne by the Fund. Such sales may also result in realisation of taxable capital gains, including short-term capital gains (which are generally taxed at ordinary income tax rates when distributed to shareholders). The transaction costs associated with portfolio turnover may adversely affect a Fund’s performance.

The following security types are excluded from the calculation of the portfolio turnover rate: affiliated investment funds, financial derivative instruments, TBA Mortgage Dollar Rolls, sale-buybacks and other short-term instruments with a maturity of less than 365 days.

The portfolio turnover rate for the financial year ending 31 December 2025 for each Fund is as follows:

Fund Name	2025 Portfolio Turnover Rate

All data presented in the annexes which follow has been calculated based on the portfolio holdings of the relevant Fund as at 31 December 2025 and constitutes unaudited information which has not been subject to any assurance provided by the Auditors or any third party. All data and other information contained in the annexes has been compiled in accordance with the proprietary sustainable finance framework implemented by the Manager and the Investment Advisor for the relevant Fund.

The PIMCO TRENDS Managed Futures Strategy Fund has been classified pursuant to Article 8 of the Sustainable Finance Disclosures Regulation since 23 June 2025.

The MAARS Multi-Strategy Fund was authorised by the Central Bank on 18 December 2025 and is classified pursuant to Article 8 of the Sustainable Finance Disclosures Regulation. However, as at 31 December 2025, there were no shareholders in the Fund and no trading activity had taken place. As such, a periodic annex for the Fund has not been included.

Taxonomy Regulation

For Funds that are classified as Article 8 or Article 9 under SFDR, please refer to the Annex for each respective Fund appended herein for information relating to alignment with Regulation EU/2020/852, commonly referred to as the Taxonomy Regulation. For Funds that are not classified as Article 8 (i.e. do not promote environmental and/or social characteristics) or Article 9 (i.e. do not have a sustainable investment objective) under SFDR, the underlying investments do not take into account the EU criteria for environmentally sustainable economic activities.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Diversified Income ESG Fund

Legal entity identifier: 549300ECS7VMY4LHDC04

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made sustainable investments with an environmental objective: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: ____%

☒ ☐ ☒ No

☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of **36.37% of sustainable investments**

☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy**

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective**

**While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor’s implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”).

As at 31 December 2025, the Fund’s investments in ESG Fixed Income Securities was 27.14%.

The Fund’s exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund’s screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	27.14%	28.2%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

*As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund’s underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund’s sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor’s application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor’s internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
PIMCO Funds: Global Investors Series plc - PIMCO ESG Income Fund	Other	9.99%	Ireland

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
* Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	36.37%	39.78%	35%	47%
Sustainable investments which contributed to an environmental objective	35.60%	37.55%	33%	45%
** Sustainable investments which contribute to a social objective	0.77%	2.23%	2%	2%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Government	28.72%
Financial	16.71%
Mortgage Securities	9.90%
Asset Backed Securities	7.80%
Utilities	6.42%
Other Category	6.31%
Consumer, Non-cyclical	6.00%
Consumer, Cyclical	5.38%
Communications	5.01%
Industrial	2.90%
Technology	2.78%
Energy	1.30%
Basic Materials	0.76%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 1.38%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0%
- Climate change adaptation: 1.30%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 28% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	1.38%	1.35%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0.91%	1.05%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0.15%	0.09%	0%	0%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.08%	0.07%	0.09%	0.11%	0.10%	0.13%
Taxonomy-aligned: (No gas and nuclear)	1.30%	2.04%	1.78%	1.81%	2.83%	2.47%
Non Taxonomy-aligned	98.62%	97.89%	98.13%	98.08%	97.07%	97.40%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 34.38%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 0.77% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 36.37% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Emerging Local Bond ESG Fund

Legal entity identifier: 549300XJ4S7ZD2HUG118

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ Yes

☐ It made sustainable investments with an environmental objective: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: ____%

☒ ☐ ☒ No

☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of **33.29% of sustainable investments**

☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy**

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective**

**While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities").

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

As at 31 December 2025, the Fund’s investments in ESG Fixed Income Securities was 29.16%.

The Fund’s exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund’s screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	29.16%	27%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

*As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund’s underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund’s sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor’s application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor’s internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets	Country
Philippines Government International Bond 6.250% due 28/02/2029	Emerging Markets	6.23%	Philippines
Peru Government International Bond 7.300% due 12/08/2033	Emerging Markets	3.82%	Peru
South Africa Government International Bond 8.500% due 31/01/2037	Emerging Markets	3.48%	South Africa

Czech Republic Government International Bond 4.500% due 11/11/2032	Government Related	1.64%	Czech Republic

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
*Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	33.29%	29.64%	19%	27%
Sustainable investments which contributed to an environmental objective	29.34%	27.54%	15%	21%
**Sustainable investments which contribute to a social objective	3.95%	2.10%	4%	6%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Government	97.66%
Financial	5.53%
Communications	1.07%
Other Category	-4.27%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.01%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.01%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 87% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	0.01%	0%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0%	0%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0%	0%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

☐ **Yes:**

☐ In fossil gas ☐ In nuclear energy

☒ **No**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: (No gas and nuclear)	0.01%	0.01%	0.00%	0.08%	0.10%	0%
Non Taxonomy-aligned	99.99%	99.99%	100%	99.92%	99.9%	100%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 29.34%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 3.95% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 33.29% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Emerging Markets Bond ESG Fund

Legal entity identifier: IU161HZ5QHJ5X3UAQ421

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☒ No

It made sustainable investments with an environmental objective: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: ____%

✓ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 54.32% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy**

✓ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- ✓ with a social objective**

****While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.**

☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

● How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**").

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

As at 31 December 2025, the Fund's investments in ESG Fixed Income Securities was 54.01%.

The Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	54.01%	48%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

*As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
Romania Government International Bond 5.625% due 22/02/2036	Emerging Markets	3.70%	Romania
Argentina Government International Bond 3.500% due 09/07/2041	Emerging Markets	2.00%	Argentina
Dominican Republic Government International Bond 6.600% due 01/06/2036	Emerging Markets	1.71%	Dominican Republic
Ivory Coast Government International Bond 7.625% due 30/01/2033	Emerging Markets	1.59%	Ivory Coast
U.S. Treasury Bonds 3.250% due 15/05/2042	US Government Related	1.41%	United States
Colombia Government International Bond 8.000% due 14/11/2035	Emerging Markets	1.26%	Colombia

Uruguay Government International Bond 5.750% due 28/10/2034	Other	0.85%	Uruguay

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
*Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	54.32%	48.47%	34%	25%
Sustainable investments which contributed to an environmental objective	48.58%	42.49%	31%	23%
**Sustainable investments which contribute to a social objective	5.74%	5.98%	3%	2%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Government	72.25%
Financial	16.86%
Utilities	5.36%
Mortgage Securities	2.65%
Energy	2.38%
Communications	2.06%
Basic Materials	1.74%
Industrial	1.73%
Technology	0.98%
Consumer, Cyclical	0.81%
Consumer, Non-cyclical	0.71%
Asset Backed Securities	0.38%
Other Category	-7.93%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.32%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.31%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 63% of the Fund’s total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	0.32%	0.11%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0.14%	0.00%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0%	0.00%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.05%	0.04%	0.03%	0.12%
Taxonomy-aligned: (No gas and nuclear)	0.30%	0.74%	0.41%	0.81%	2.01%	1.12%
Non Taxonomy-aligned	99.69%	99.25%	99.54%	99.15%	97.96%	98.76%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as “Other Environmental” investments above is 48.24%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 5.74% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund’s investments were considered to promote environmental and/or social characteristics because all of the Fund’s investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 54.32% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: PIMCO ESG Income Fund

Legal entity identifier: 549300TKMFF4LMUCRB73

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made sustainable investments with an environmental objective: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: __%

☒ ☐ ☒ No

☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of **43.65% of sustainable investments**

☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy**

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective**

**While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor’s implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”).

As at 31 December 2025, the Fund’s investments in ESG Fixed Income Securities was 35.64%.

The Fund’s exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund’s screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	35.64%	48.2%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

* As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund’s underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund’s sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor’s application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor’s internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest investments	Sector	% Net Assets	Country
Uniform Mortgage-Backed Security, TBA 6.000% due 03/01/2056	Securitised	11.40%	United States
Uniform Mortgage-Backed Security, TBA 6.500% due 02/01/2056	Securitised	10.81%	United States

U.S. Treasury Notes 4.500% due 31/03/2026	Net Other Short Duration Instruments	1.03%	United States

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
* Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	43.65%	57.16%	57%	32%
Sustainable investments which contributed to an environmental objective	43.10%	54.61%	55%	30%
** Sustainable investments which contribute to a social objective	0.55%	2.55%	2%	2%

* It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

 In which economic sectors were the investments made?

Sector	% of Net Assets
Mortgage Securities	49.25%
Government	16.42%
Financial	14.80%
Asset Backed Securities	11.02%
Communications	4.29%
Utilities	3.71%
Consumer, Non-cyclical	2.48%
Consumer, Cyclical	1.89%
Technology	1.18%
Industrial	1.13%
Energy	0.36%
Basic Materials	0.10%
Other Category	-6.61%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.63%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.52%
- Climate change adaptation: 0.10%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.10%
- Pollution aligned: 0%
- Water Aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 16% of the Fund's total investments.

The table below provides a comparison against previous reporting periods

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	0.63%	0.49%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0.18%	0.18%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0.08%	0.02%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.06%	0.06%	0.07%	0.08%	0.07%	0.09%
Taxonomy-aligned: (No gas and nuclear)	0.56%	0.63%	0.42%	0.68%	0.76%	0.5%
Non Taxonomy-aligned	99.38%	99.31%	99.51%	99.24%	99.17%	99.41%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 42.58%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 0.54% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 43.65% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Euro Bond Fund

Legal entity identifier: U8E5120AOPVSYI2B4U46

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ **Yes**

☐ **It made sustainable investments with an environmental objective: __%**

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ **It made sustainable investments with a social objective: __%**

☒ ☐ ☒ **No**

☐ **It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments**

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ **It promoted E/S characteristics, but did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Direct investments made by the Fund in issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands)	0%	0%

What were the top investments of this financial product?

Asset allocation describes the share of investments in specific assets.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Assets aligned with E/S characteristics	100%	100%	100%	100%

In which economic sectors were the investments made?

Sector	% of Net Assets
Government	49.02%
Mortgage Securities	22.94%
Financial	19.79%
Asset Backed Securities	17.23%
Consumer, Non-cyclical	2.62%
Utilities	1.86%
Communications	0.77%
Industrial	0.64%
Energy	0.34%
Consumer, Cyclical	0.27%
Technology	0.18%
Basic Materials	0.08%
Other Category	-15.74%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 1.36%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 1.35%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.01%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 43% of the Fund’s total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with the EU Taxonomy	1.36%	0.79%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	0.70%	0.23%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.10%	0.14%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.07%	0.07%	0.08%	0.12%	0.11%	0.14%
Taxonomy-aligned: (No gas and nuclear)	1.29%	1.41%	0.89%	2.25%	2.45%	1.56%
Non Taxonomy-aligned	98.64%	98.52%	99.03%	97.63%	97.44%	98.30%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of derivatives which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy. Such derivative instruments are used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Euro Credit Fund

Legal entity identifier: RJV2Q25HZY9ZSGZSMB60

Environmental and/or social characteristics

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained. social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made sustainable investments with an environmental objective: %

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: %

☒ No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

 with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- with a social objective

✓ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

● How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Direct investments made by the Fund in issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands)	0%	0%

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in
specific assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Assets aligned with E/S characteristics	100%	100%	100%	100%

In which economic sectors were the investments made?

Sector	% of Net Assets
Government	27.72%
Financial	27.35%
Mortgage Securities	16.35%
Asset Backed Securities	8.79%
Consumer, Non-cyclical	8.12%
Consumer, Cyclical	5.75%
Communications	5.21%
Utilities	4.59%
Industrial	1.75%
Basic Materials	1.17%
Energy	0.55%
Technology	0.33%
Other Category	-7.69%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 2.2%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 1.89%
- Climate change adaptation: 0.19%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.01%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 25% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with the EU Taxonomy	2.2%	2.63%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	1.12%	1.59%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.11%	0.28%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0.02%	0%	0%	0.02%	0%
Taxonomy-aligned: Nuclear	0.02%	0.02%	0.02%	0.03%	0.03%	0.02%
Taxonomy-aligned: (No gas and nuclear)	2.17%	2.88%	2.15%	2.90%	3.83%	2.86%
Non Taxonomy-aligned	97.81%	97.08%	97.83%	97.07%	96.12%	97.12%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of derivatives which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy. Such derivative instruments are used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Euro Income Bond Fund

Legal entity identifier: SEK18YSZLD20P25KSR60

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made sustainable investments with an environmental objective: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: __%

☒ ☐ ☒ No

☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

- Water aligned: 0.01%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 9% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with the EU Taxonomy	2.03%	3.23%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	1.18%	1.73%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.23%	0.70%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.23%	0.23%	0.27%	0.26%	0.25%	0.30%
Taxonomy-aligned: (No gas and nuclear)	1.80%	2.22%	1.72%	1.99%	2.45%	1.90%
Non Taxonomy-aligned	97.97%	97.55%	98.01%	97.75%	97.30%	97.80%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of derivatives which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy. Such derivative instruments are used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: PIMCO European High Yield Bond Fund

Legal entity identifier: 549300HILDNB781VVQ39

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ Yes

☐ It made sustainable investments with an environmental objective: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: __%

☒ ☐ ☒ No

☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Direct investments made by the Fund in issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands)	0%	0%

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023
Assets aligned with E/S characteristics	100%	100%	100%

In which economic sectors were the investments made?

Sector	% Net Assets
Consumer, Cyclical	18.06%
Consumer, Non-cyclical	17.79%
Financial	17.18%
Communications	9.82%
Government	8.56%
Other Category	5.97%
Basic Materials	5.96%
Industrial	4.95%
Utilities	4.40%
Technology	3.71%
Energy	2.93%
Diversified	0.41%
Asset Backed Securities	0.27%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 3.91%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 3.78%
- Climate change adaptation: 0.11%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.02%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 8% of the Fund’s total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023
Percentage of total investments aligned with the EU Taxonomy	3.91%	2.71%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	1.12%	0.75%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.80%	0.88%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0.01%	0%	0%	0.01%	0%
Taxonomy-aligned: Nuclear	0.43%	0.40%	0.50%	0.47%	0.44%	0.55%
Taxonomy-aligned: (No gas and nuclear)	3.48%	4.23%	3.40%	3.79%	4.62%	3.71%
Non Taxonomy-aligned	96.09%	95.36%	96.10%	95.74%	94.93%	95.74%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of derivatives which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy. Such derivative instruments are used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Global Bond ESG Fund

Legal entity identifier: 549300PFJAUUMMOPU079

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: __%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: __%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 34.83% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy**

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective**

**While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund’s approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

1126 PIMCO FUNDS: GLOBAL INVESTORS SERIES PLC

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**").

As at 31 December 2025, the Fund's investments in ESG Fixed Income Securities was 21.61%.

The Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	21.61%	14.90%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

* As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters".

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
*Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	34.83%	21.74%	18%	15%
Sustainable investments which contributed to an environmental objective	31.3%	19.53%	16%	14%
**Sustainable investments which contribute to a social objective	3.53%	2.21%	2%	1%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% Net Assets
Government	52.73%
Mortgage Securities	45.63%
Financial	24.55%
Asset Backed Securities	5.46%
Consumer, Non-cyclical	3.87%
Utilities	2.70%
Communications	1.99%
Consumer, Cyclical	0.91%
Energy	0.81%
Industrial	0.68%
Technology	0.52%
Basic Materials	0.04%
Other Category	-39.90%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 1.07%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 1.05%
- Climate change adaptation: 0.01%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.01%
- Pollution aligned: 0%
- Water Aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 42% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	1.07%	1.53%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0.70%	1.01%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0.12%	0.13%	0%	0%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.09%	0.09%	0.11%	0.16%	0.15%	0.18%
Taxonomy-aligned: (No gas and nuclear)	0.97%	1.12%	0.94%	1.67%	1.93%	1.62%
Non Taxonomy-aligned	98.94%	98.79%	98.95%	98.17%	97.92%	98.20%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 30.26%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 3.53% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives, used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 34.83% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Global High Yield Bond ESG Fund Legal entity identifier: 254900RJKPQGWHWVD04

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
Yes	No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 30.56% of sustainable investments ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy** ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective** ☐ It promoted E/S characteristics, but did not make any sustainable investments ☐ **While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund’s approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

The environmental characteristics promoted by the Fund included climate change mitigation and avoiding the financing of certain fossil fuel related activities such as thermal coal mining. The social characteristics promoted by the Fund included human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact; assessed adherence to generally accepted international norms and standards set by the UN Global Compact; and avoiding the financing of controversial weapons.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

In measuring the attainment of the environmental characteristics of the Fund, the Investment Advisor used the following sustainability indicators:

- **Greenhouse gas (GHG) emissions of investee companies** - due to GHG emissions associated with the fossil fuel industry, the restriction of issuers with material exposure to Fossil Fuel related sectors (as further described in the Fund's Supplement) with the exception of ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") (where certain mandatory indicators were applied to the specific use of proceeds attributable to the bonds, and not by application of such mandatory indicators to the general activities of the issuers).

In seeking to monitor and manage the GHG emissions of the Fund, as at 31 December 2025, the Fund had no exposure* to investee companies with material exposure to Fossil Fuel related sectors.

- **Exposure to green bonds** - investments in green bonds (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") which enable issuers to raise capital to fund projects with positive environmental benefits and which contributed to the environmental objectives of climate change adaptation and climate change mitigation. As at 31 December 2025, the Fund's exposure to green bonds was 5.21%.

In measuring the attainment of the social characteristics of the Fund, the Investment Advisor used the following sustainability indicators:

- Exposure to issuers determined to be in violation of human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact.
- Exposure to issuers which failed to adhere to generally accepted international norms and standards set by the UN Global Compact.
- Exposure to controversial weapons.

As at 31 December 2025, the Fund had no exposure* to the categories of issuers detailed above.

*As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

...and compared to previous periods?

Sustainability Indicator	2025	2024
Exposure to investee companies with material exposure to Fossil Fuel related sectors	0%	0%
Exposure to green bonds	5.21%	9.20%
Exposure to issuers determined to be in violation of human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact.	0%	0%
Exposure to issuers which failed to adhere to generally accepted international norms and standards set by the UN Global Compact.	0%	0%
Exposure to controversial weapons.	0%	0%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through issuer engagement and its exclusion strategy.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters".

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including issuer engagement and exclusions.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
Vmed O2 UK Financing PLC 5.625% due 15/04/2032	High Yield Credit	0.89%	United Kingdom
Ritchie Bros Holdings, Inc. 7.750% due 15/03/2031	High Yield Credit	0.88%	United States
Flora Food Management BV 6.875% due 07/02/2029	High Yield Credit	0.87%	Netherlands
BCP Modular Services Finance PLC 6.500% due 07/10/2031	High Yield Credit	0.82%	United Kingdom
Nissan Motor Acceptance Co. LLC 7.050% due 15/09/2028	High Yield Credit	0.80%	United States
SoftBank Group Corp. 5.375% due 01/08/2029	High Yield Credit	0.79%	Japan
Hilton Domestic Operating Co., Inc. 3.625% due 15/02/2032	High Yield Credit	0.76%	United States
Iron Mountain, Inc. 4.875% due 15/09/2027	High Yield Credit	0.75%	United States
Tenet Healthcare Corp. 4.375% due 15/01/2030	High Yield Credit	0.72%	United States
RHP Hotel Properties LP 7.250% due 15/07/2028	High Yield Credit	0.71%	United States
Beignet Investor LLC 6.581% due 30/05/2049	Investment Grade Credit	0.69%	United States
JetBlue Airways Corp. 9.875% due 20/09/2031	High Yield Credit	0.68%	Multinational
Primo Water Holdings, Inc. 4.375% due 30/04/2029	High Yield Credit	0.67%	United States
CrowdStrike Holdings, Inc. 3.000% due 15/02/2029	Investment Grade Credit	0.66%	United States
Ball Corp. 2.875% due 15/08/2030	High Yield Credit	0.66%	United States

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024
*Assets aligned with E/S characteristics	93.71%	86.27%
Sustainable investments	30.56%	19.38%
Sustainable investments which contributed to an environmental objective	30.26%	18.20%
**Sustainable investments which contribute to a social objective	0.3%	1.18%

*As disclosed in the Fund's Supplement, the Fund may invest in index derivatives, such as credit default swap indices, which may provide indirect exposure to excluded issuers. Assets in the '#2 Other' category include investments in index derivatives, such as credit default swap indices.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% Net Assets
Consumer, Non-cyclical	20.83%
Consumer, Cyclical	17.10%
Communications	16.09%
Financial	16.07%
Industrial	8.18%
Other Category	6.32%
Technology	5.33%
Government	5.29%
Basic Materials	2.68%
Utilities	1.75%
Energy	0.18%
Automobiles	0.17%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 1.16%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 1.15%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.02%
- Pollution aligned: 0%
- Water Aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 0% of the Fund's total investments.

The table below a comparison against previous reporting periods.

Category of Investment	2025	2024
Percentage of total investments aligned with EU Taxonomy	1.16%	0.93%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	0.51%	0.26%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0.1%	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined above.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.10%	0.09%	0.11%	0.10%	0.09%	0.11%
Taxonomy-aligned: (No gas and nuclear)	1.06%	1.53%	1.36%	1.06%	1.53%	1.36%
Non Taxonomy-aligned	98.84%	98.38%	98.53%	98.84%	98.38%	98.53%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 29.38%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 0.3% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 93.71% of the Fund's investments were considered to promote environmental and social characteristics.

As disclosed in the Fund's Supplement, the Fund may invest in index derivatives, such as credit default swap indices, which may provide indirect exposure to excluded issuers. Assets in the 'Other' category include investments in index derivatives, such as credit default swap indices.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 30.56% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Global Investment Grade Credit ESG Fund Legal entity identifier: 5493005HZUTWLN5JSJ59

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
Yes	✓ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 62.23% of sustainable investments ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy** ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective** ☐ It promoted E/S characteristics, but did not make any sustainable investments ☐ **While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund’s approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**").

As at 31 December 2025, the Fund's investments in ESG Fixed Income Securities was 52.1%.

The Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	52.1%	52.2%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

*As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
Canada Government International Bond 3.000% due 03/01/2032	Government Related	1.86%	Canada
Uniform Mortgage-Backed Security 5.000% due 03/01/2054	Securitised	1.64%	United States

Arkea Home Loans SFH S.A. 3.250% due 08/01/2033	Investment Grade Credit	0.46%	France

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
*Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	62.23%	63.93%	57%	60%
Sustainable investments which contributed to an environmental objective	58.05%	57.09%	50%	55%
**Sustainable investments which contribute to a social objective	4.18%	6.84%	7%	5%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Financial	40.81%
Government	17.53%
Utilities	10.63%
Mortgage Securities	7.59%
Consumer, Non-cyclical	6.55%
Communications	4.31%
Consumer, Cyclical	3.36%
Industrial	2.33%
Asset Backed Securities	2.15%
Technology	1.82%
Other Category	1.75%
Energy	0.69%
Basic Materials	0.47%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 2.72%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 2.49 %
- Climate change adaptation: 0.11%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.03%
- Pollution aligned: 0%
- Water Aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 14% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	2.72%	2.55%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	1.49%	1.31%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	0.17%	0.19%	0%	0%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.1%	0.09%	0.11%	0.11%	0.1%	0.13%
Taxonomy-aligned: (No gas and nuclear)	2.63%	3.19%	2.51%	3.07%	3.73%	2.94%
Non Taxonomy-aligned	97.27%	96.72%	97.38%	96.82%	96.17%	96.93%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 55.64%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 4.18% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 62.23% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Global Low Duration Real Return Fund Legal entity identifier: 5493004EUSX3DN7B3B79

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes ☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	✓ No ☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor’s implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Direct investments made by the Fund in issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands)	0%	0%

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Government	120.72%
Mortgage Securities	17.29%
Asset Backed Securities	12.84%
Financial	5.31%
Industrial	1.38%
Consumer, Non-cyclical	0.11%
Other Category	-57.65%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.07%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.07%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 79% of the Fund’s total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with the EU Taxonomy	0.07%	0.13%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	0.01%	0.00%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.00%	0.00%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

☐ **Yes:**

☐ In fossil gas

☐ In nuclear energy

☒ **No**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ **It made sustainable investments with a social objective: ___%**

☒ ☐ ☒ **No**

☐ **It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments**

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ **It promoted E/S characteristics, but did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy on its direct investments.

The Fund also promoted environmental and social characteristics by actively engaging with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy. The Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate. As at 31 December 2025, the Fund had no direct exposure to issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands).

The Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Direct investments made by the Fund in issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands)	0%	0%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
Credit Agricole S.A. 7.250% due 23/09/2028	Investment Grade Credit	2.43%	France
U.S. Treasury Bills 3.626% due 28/04/2026	Net Other Short Duration Instruments	1.92%	United States
Lloyds Banking Group PLC 8.500% due 27/03/2028	Investment Grade Credit	1.74%	United Kingdom

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Assets aligned with E/S characteristics	100%	100%	100%	100%

In which economic sectors were the investments made?

Sector	% of Net Assets
Financial	86.68%
Government	13.29%
Communications	1.10%
Energy	0.44%
Utilities	0.39%
Consumer, Non-cyclical	0.29%
Consumer, Cyclical	0.24%
Industrial	0.20%
Basic Materials	0.12%
Other Category	-2.74%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 1.62%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 1.61%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.01%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 12% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with the EU Taxonomy	1.62%	1.04%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	0.08%	0.19%	0%	0%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.09%	0.07%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0%	0.01%	0.01%	0%
Taxonomy-aligned: (No gas and nuclear)	1.61%	1.87%	0.17%	1.83%	2.14%	0.19%
Non Taxonomy-aligned	98.38%	98.12%	99.83%	98.16%	97.85%	99.81%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of derivatives which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy. Such derivative instruments are used (i) for hedging purposes and/or (ii) for investment purposes and/or (iii) efficient portfolio management.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Low Duration Opportunities ESG Fund Legal entity identifier: 549300M7ZPBX56GB2C41

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
☒ ☒ ☐ Yes	☒ ☐ ☒ No
☐ It made sustainable investments with an environmental objective: ____% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 83.74% of sustainable investments ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy** ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective** **While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature. ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund’s approach to sustainable investing is through the promotion of environmental and social characteristics. While the Fund does not have sustainable investment as its objective, it invested a portion of its assets in sustainable investments.

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The attainment of each of the environmental and social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**").

As at 31 December 2025, the Fund's investments in ESG Fixed Income Securities was 78.58%.

The Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

As at 31 December 2025, the Fund had no exposure* to issuers involved in Fossil Fuel related sectors as described above.

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

The performance of the sustainability indicators for the 2024 reporting period, being the first reporting period in which the Fund reported the performance of the relevant sustainability indicators quantitatively, are displayed in the table below.

Sustainability Indicator	2025	2024
Exposure to ESG Fixed Income Securities	78.58%	58.70%
Exposure* to issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).	0%	0%

* As noted above, all investments with the exception of index derivatives are screened against the exclusion strategy.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved through investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") such as green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor also sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investments	Sector	% Net Assets	Country
Uniform Mortgage-Backed Security 5.000% due 10/01/2053	Securitised	16.36%	United States

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
*Assets aligned with E/S characteristics	100%	100%	100%	100%
Sustainable investments	83.74%	62.25%	18%	15%
Sustainable investments which contributed to an environmental objective	83.74%	61.33%	16%	14%
**Sustainable investments which contribute to a social objective	0%	0.92%	2%	1%

*It should be noted that all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy.

** It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Mortgage Securities	41.58%
Financial	27.34%
Government	22.49%
Utilities	12.50%
Asset Backed Securities	6.15%
Basic Materials	4.46%
Consumer, Non-cyclical	1.91%
Communications	1.80%
Technology	1.67%
Consumer, Cyclical	1.42%
Industrial	0.83%
Other Category	-22.14%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 4.91%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 4.91%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 16% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Percentage of total investments aligned with EU Taxonomy	4.91%	3.37%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Enabling activities)	2.91%	2.49%	0%	0%
Percentage of total investments aligned with EU Taxonomy (Transitional activities)	1.07%	0.55%	0%	0%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.55%	0.52%	0.65%	0.65%	0.61%	0.77%
Taxonomy-aligned: (No gas and nuclear)	4.36%	5.68%	4.37%	5.16%	6.73%	5.18%
Non Taxonomy-aligned	95.09%	93.80%	94.98%	94.19%	92.66%	94.05%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?"

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as “Other Environmental” investments above is 78.13%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 0% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 100% of the Fund’s investments were considered to promote environmental and/or social characteristics because all of the Fund’s investments (with the exception of index derivatives, used for investment purposes, which are not subject to minimum environmental or social safeguards) were screened against its exclusion strategy.

As outlined in greater detail above, as at 31 December 2025, the Fund invested 83.74% of its net assets in sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: PIMCO Climate Bond Fund

Legal entity identifier: 549300KBV832SKE8DW37

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

☒ ☒ ☒ **Yes**

☒ **It made sustainable investments with an environmental objective: 94.48%**

- ☒ in economic activities that qualify as environmentally sustainable under the EU Taxonomy**
- ☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ **It made sustainable investments with a social objective: 0.09%****

**While the Fund did invest in (i) economic activities that qualify as environmentally sustainable under the EU Taxonomy and (ii) sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in these categories of investments and consequently any such investments acquired by the Fund should be considered incidental in nature.

☐ ☐ ☐ **No**

☐ **It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments**

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☐ **It promoted E/S characteristics, but did not make any sustainable investments**

To what extent was the sustainable investment objective of this financial product met?

During the period, the Fund achieved optimal risk adjusted returns, consistent with prudent investment management, while giving consideration to long term climate related risks and opportunities. Through consideration of long term climate related risks and opportunities, the Fund contributed to the environmental objectives of climate change mitigation and climate change adaptation.

As further detailed below in the section entitled "Asset Allocation", the Fund invested in sustainable investments including ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "**ESG Fixed Income Securities**") which enable issuers to raise capital to fund projects with positive environmental benefits and which contributed to the environmental objectives of climate change adaptation and climate change mitigation.

Derivatives held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used for the purposes of attaining the Fund's sustainable investment objective.

How did the sustainability indicators perform?

In measuring the attainment of the sustainable investment objective of the Fund, the Investment Advisor used certain sustainability indicators for all relevant securities which included:

- **Greenhouse gas (GHG) emissions and emissions intensity of investee companies** - due to GHG emissions and emissions intensity associated with the fossil fuel industry, the restriction of issuers

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

with material exposure to Fossil Fuel related sectors (as further described in the Fund’s Supplement) with the exception of ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) (where certain mandatory indicators were applied to the specific use of proceeds attributable to the bonds, and not by application of such mandatory indicators to the general activities of the issuers) and other applicable criteria, such as bonds issued by issuers demonstrating leadership with respect to addressing climate related factors.

In seeking to monitor and manage the GHG emissions and intensity profile of the Fund, as at 31 December 2025 the Fund had no exposure to investee companies with material exposure to Fossil Fuel related sectors.

- **Exposure to green labelled bonds** - investments in green labelled bonds (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) which enable issuers to raise capital to fund projects with positive environmental benefits and which contributed to the environmental objectives of climate change adaptation and climate change mitigation. As at 31 December 2025, the Fund’s exposure to green labelled bonds was 82.14%.

The Investment Advisor measured and monitored these selected sustainability indicators in order to demonstrate attainment of its sustainable investment objective on a periodic basis using third party research and data providers.

...and compared to previous periods?

Sustainability Indicator	2025	2024
Exposure to investee companies with material exposure to Fossil Fuel related sectors.	0%	0%
Exposure to green labelled bonds	82.14%	79.50%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Fund’s sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social sustainable investment objective. This assessment was carried out by the Investment Advisor’s application of various adverse sustainability indicators including:

- Restriction of issuers with material exposure to Fossil Fuel related sectors (as further described in the Fund’s Supplement) with the exception of ESG Fixed Income Securities (as further described in the section of the Prospectus entitled “**ESG Fixed Income Securities**”) (where certain mandatory indicators were applied to the specific use of proceeds attributable to the bonds, and not by application of such mandatory indicators to the general activities of the issuers).
- Restriction of issuers linked to controversial weapons.
- Restriction of issuers violating UNGC & OECD guidelines.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor’s internal sustainability screening process. This screening process included consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as further described in the Fund’s Supplement). The Investment Advisor sought to mitigate principal adverse impacts through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that “result in negative effects on sustainability factors” while sustainability factors are defined as “environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters”.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including exposure to Fossil Fuel related sectors (as further described in the Fund’s Supplement) and greenhouse gas emissions) during the reference period.

The Investment Advisor considered principal adverse impacts as part of the investment process by using a combination of methods to help mitigate principal adverse impacts including issuer engagement and exclusions.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

Largest Investment	Sector	% of Net Assets	Country
Uniform Mortgage-Backed Security 5.000% due 01/11/2053	Securitised	2.58%	United States
Brazil Government International Bond 5.500% due 04/02/2033	Emerging Markets External	0.96%	Brazil
Uniform Mortgage-Backed Security 5.000% due 01/10/2053	Securitised	0.63%	United States

CBRE Services, Inc. 5.950% due 15/08/2034	Investment Grade Credit	0.11%	United States

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which was invested in sustainable investments as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation
describes the share
of investments in
specific assets.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
Sustainable Investments	94.57%	91.09%	93%	81%
Sustainable investments which contributed to an environmental objective	94.48%	91.06%	92%	80%
**Sustainable investments which contribute to a social objective	0.09%	0.03%	1%	1%
Investments which did not constitute "sustainable investments" which were used for overall risk management such as liquidity or hedging	5.43%	8.91%	7%	19%

**It should be noted that the Fund has not made any commitment to invest in sustainable investments which (i) are aligned with the EU Taxonomy and (ii) contribute to a social objective and such investments should be considered incidental in nature.

In which economic sectors were the investments made?

Sector	% of Net Assets
Financial	39.89%
Utilities	17.01%
Government	13.37%
Consumer, Non-cyclical	5.36%
Mortgage Securities	4.87%
Consumer, Cyclical	4.82%
Communications	4.07%
Industrial	3.87%
Other Category	2.58%
Technology	1.26%
Basic Materials	1.17%
Asset Backed Securities	0.87%
Energy	0.87%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of investments that were aligned with the EU Taxonomy is 7.17%.

A breakdown of the environmental objectives to which such investments contributed to is as follows:

- Climate change mitigation: 6.75%
- Climate change adaptation: 0.15%
- Biodiversity aligned: 0%
- Circular economy aligned: 0.02%
- Pollution aligned: 0%
- Water aligned: 0%

As noted above, the Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 11% of the Fund's total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024	2023	2022
EU Taxonomy aligned investments	7.17%	5.19%	0%	0%
EU Taxonomy aligned investments (Enabling activities)	4.43%	3.09%	0%	0%
EU Taxonomy aligned investments (Transitional activities)	0.57%	0.30%	0%	0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

** Details on sovereign exposures are outlined below.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0.02%	0%	0%	0.02%	0%
Taxonomy-aligned: Nuclear	0.46%	0.44%	0.49%	0.52%	0.50%	0.55%
Taxonomy-aligned: (No gas and nuclear)	6.71%	8.87%	7.49%	7.55%	9.98%	8.42%
Non Taxonomy-aligned	92.83%	90.67%	92.02%	91.93%	89.52%	91.03%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not aligned with the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 87.69%. For further information with respect to sustainability-related data availability and data challenges please refer to <https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland>.

What was the share of socially sustainable investments?

As noted above, as at 31 December 2025, the Fund held 0.09% in sustainable investments which contribute to a social objective during the period covered by the financial statements. As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, the Fund was wholly invested in sustainable investments save for those investments which were held for other purposes such as liquidity or hedging. As described in greater detail above, as at 31 December 2025, the Fund invested 94.57% of its net assets in sustainable investments.

The proportion of the investments of the Fund which did not constitute “sustainable investments” (such as cash) were used for overall risk management such as liquidity or hedging and were aligned with the Fund’s overall investment objective.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the Investment Advisor engaged with companies and issuers on material climate related matters and sought to encourage companies to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: PIMCO TRENDS Managed Futures Strategy Fund Legal entity identifier: 549300JKJU7II4WI8674

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
☒ ☒ ☐ Yes ☐ It made sustainable investments with an environmental objective: ____% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: ____%	☒ ☐ ☒ No ☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy. The environmental characteristics promoted by the Fund were climate change mitigation and avoiding the financing of certain fossil fuel related activities such as thermal coal mining. The social characteristics promoted by the Fund were human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact; assessed adherence to generally accepted international norms and standards set by the UN Global Compact; and avoiding the financing of military weapons.

How did the sustainability indicators perform?

- In measuring the attainment of the environmental characteristics of the Fund, the Investment Advisor used the following sustainability indicators:
- Exposure to issuers determined to be engaged principally in thermal coal mining.
- In measuring the attainment of the social characteristics of the Fund, the Investment Advisor used the following sustainability indicators:
- Exposure to issuers determined to be in violation of human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact.
 - Exposure to issuers which failed to adhere to generally accepted international norms and standards set by the UN Global Compact.
 - Exposure to military weapons.
 - Exposure to the tobacco industry.

As at 31 December 2025 the Fund had no direct exposure to the categories of issuers detailed above.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

Asset allocation
describes the share of
investments in specific
assets.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

As at 31 December 2025, the remaining assets of the Fund under ' #2 Other ' included cash, investments in derivatives and other instruments which were principally used for the purposes of overall risk management (including liquidity and hedging). Minimum environmental or social safeguards did not apply to such investments.

The table below provides the figures for 2025.

Category of Investment	2025
Assets aligned with E/S characteristics	75.55%

In which economic sectors were the investments made?

Sector	% of Net Assets
Mortgage Securities	43.91%
Financial	34.42%
Asset Backed Securities	9.02%
Consumer, Cyclical	4.06%
Consumer, Non-cyclical	3.37%
Utilities	2.55%
Energy	1.80%
Communications	1.32%
Industrial	0.66%
Other Category	-1.11%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.61%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.61%
- Climate change adaptation: 0%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 0% of the Fund's total investments.

The table below provides figures for 2025.

Category of Investment	2025
Percentage of total investments aligned with the EU Taxonomy	0.61%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	0.25%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.01%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

☐ **Yes:**

☐ In fossil gas ☐ In nuclear energy

☒ **No**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures**

**Details on sovereign exposures are outlined above.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: (No gas and nuclear)	0.61%	1.13%	0.79%	0.61%	1.13%	0.79%
Non Taxonomy-aligned	99.39%	98.87%	99.21%	99.39%	98.87%	99.21%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 75.55% of the Fund's assets were considered to promote the environmental and social characteristics. As at 31 December 2025, the remaining assets of the Fund under '#2 Other' included cash, investments in derivatives and other instruments which were used for investment purposes and for the purposes of overall risk management (including liquidity and hedging). Minimum environmental or social safeguards did not apply to such investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: US High Yield Bond Fund

Legal entity identifier: H77EL1W1M92QDZ004K92

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ **Yes**

☐ **It made sustainable investments with an environmental objective: __%**

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ **It made sustainable investments with a social objective: __%**

☒ ☐ ☒ **No**

☐ **It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments**

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ **It promoted E/S characteristics, but did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the Fund promoted environmental and social characteristics by operating an exclusion strategy. The environmental characteristics promoted by the Fund were climate change mitigation and avoiding the financing of certain fossil fuel related activities such as thermal coal mining. The social characteristics promoted by the Fund were human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact; assessed adherence to generally accepted international norms and standards set by the UN Global Compact; and avoiding the financing of military weapons.

How did the sustainability indicators perform?

In measuring the attainment of the environmental characteristics of the Fund, the Investment Advisor used the following sustainability indicators:

- Exposure to issuers determined to be engaged principally in thermal coal mining.

In measuring the attainment of the social characteristics of the Fund, the Investment Advisor used the following sustainability indicators:

- Exposure to issuers determined to be in violation of human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact.
- Exposure to issuers which failed to adhere to generally accepted international norms and standards set by the UN Global Compact.
- Exposure to military weapons.
- Exposure to the tobacco industry.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

As at 31 December 2025 the Fund had no direct exposure to the categories of issuers detailed above.

...and compared to previous periods?

Sustainability Indicator	2025	2024
Exposure to issuers determined to be engaged principally in thermal coal mining.	0%	0%
Exposure to issuers determined to be in violation of human rights, labour rights and anti-corruption compliance as set out in the principles of the UN Global Compact.	0%	0%
Exposure to issuers which failed to adhere to generally accepted international norms and standards set by the UN Global Compact.	0%	0%
Exposure to military weapons.	0%	0%
Exposure to the tobacco industry.	0%	0%

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2025

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2025 have been used.

What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental and social characteristics as at 31 December 2025 is provided below.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

As at 31 December 2025, the remaining assets of the Fund under '2 Other' included cash, investments in derivatives and other instruments which were principally used for the purposes of overall risk management (including liquidity and hedging). Minimum environmental or social safeguards did not apply to such investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024
Assets aligned with E/S characteristics	94.33%	97.72%

In which economic sectors were the investments made?

Sector	% of Net Assets
Communications	17.24%
Consumer, Non-cyclical	14.93%
Other Category	13.16%
Consumer, Cyclical	12.89%
Financial	12.21%
Energy	8.71%
Industrial	8.11%
Technology	5.49%
Basic Materials	4.01%
Utilities	2.06%
Government	1.02%
Automobiles	0.17%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2025 have been used.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Based on the data available to the Fund, as at 31 December 2025, the percentage of total investments that were aligned with the EU Taxonomy is 0.21%.

A breakdown of the environmental objectives to which such investments contributed to, based on the data available, is as follows:

- Climate change mitigation: 0.20%
- Climate change adaptation: 0.01%
- Biodiversity aligned: 0%
- Circular economy aligned: 0%
- Pollution aligned: 0%
- Water aligned: 0%

The Fund has not made any commitment to invest in sustainable investments which are aligned with the EU Taxonomy and such investments should be considered incidental in nature.

Data used to perform this calculation is based upon third-party sources. This figure (and the figures disclosed in the table below) have not been subject to an assurance provided by an auditor nor have they been reviewed by any other third party.

Due to the lack of an appropriate calculation methodology, it was not possible to assess the extent to which sovereign exposures contributed to environmentally sustainable economic activities as at 31 December 2025. Such sovereign exposures amounted to 1% of the Fund’s total investments.

The table below provides a comparison against previous reporting periods.

Category of Investment	2025	2024
Percentage of total investments aligned with the EU Taxonomy	0.21%	0.09%
Percentage of total investments aligned with the EU Taxonomy (Enabling activities)	0.14%	0.02%
Percentage of total investments aligned with the EU Taxonomy (Transitional activities)	0.04%	0.04%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures **

**Details on sovereign exposures are outlined above.

	Taxonomy Alignment (Including sovereign bonds)			Taxonomy Alignment (excluding sovereign bonds)		
	Turnover	Capex	Opex	Turnover	Capex	Opex
Taxonomy-aligned: Fossil Gas	0%	0%	0%	0%	0%	0%
Taxonomy-aligned: Nuclear	0.04%	0.04%	0.04%	0.04%	0.04%	0.04%
Taxonomy-aligned: (No gas and nuclear)	0.17%	0.17%	0.17%	0.17%	0.17%	0.17%
Non Taxonomy-aligned	99.79%	99.79%	99.79%	99.79%	99.79%	99.79%

What was the share of investments made in transitional and enabling activities?

Information on the share of investments made in transitional and enabling activities is available in the table above in response to the question "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?".

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2025, 94.33% of the Fund's assets were considered to promote the environmental and social characteristics. As at 31 December 2025, the remaining assets of the Fund under '#2 Other' included cash, investments in derivatives and other instruments which were principally used for the purposes of overall risk management (including liquidity and hedging). Minimum environmental or social safeguards did not apply to such investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers on material climate related matters which included encouraging issuers, where applicable, to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.
